II) Request for a Fee Waiver and Expedited Processing

The requested records do/will demonstrate that [1] Women’s History Week has been commemorated in the U.S.A since March 07th 1982; [2] Women’s History Month has been commemorated in the U.S.A since March 1987; [3] the DHS (USSS) is a federal agency of the U.S government, which has in March 2022 published a report in which they have recognized that (i) the origins of the “incel” label date back to the 1990s, when a Canadian woman created an Internet peer support forum for people, who wanted a sexual relationship, but were unable to find a partner, (ii) the term “incel” is often used to describe men, who feel unable to obtain a romantic or sexual relationships with women that they believe is due to them; [4] Michael Ayele (a.k.a) W is a Black man, who has interpreted the March 2022 report published by the DHS (USSS) to mean that (i) women shouldn’t be held responsible for the November 02nd 2018 shooting carried out by racist and sexist Scott Paul Beierle. (ii) women shouldn’t be held responsible for the May 23rd 2014 mass-shooting that took place near the campus of University of California, Santa Barbara (UCSB)}

In my judgment, the facts presented in my request for a fee waiver and expedited processing are not the sort to bolster public confidence in the activities of the U.S government because of the way the DOI (FBI) and the DHS (USSS) processed the Association for the Advancement of Civil Liberties (AAACL) FOIA request on the subject of the November 02nd 2018 shooting carried out by racist and sexist Scott Paul Beierle.[vii] It is also my judgment that the facts presented in my request for a fee waiver and expedited processing are not going to bolster public confidence in the misogynistic and sexist propaganda that were recently broadcasted on CNN and the Hill, which formed in part the bases for my records request: I would actually strongly advise you to beware of the February 22nd 2023 article as well as the CNN broadcast of (or around) February 26th 2023.

As a Black man with a U.S college degree (who has previously corresponded with the DOJ and the DHS about the November 02nd 2018 shooting carried out by racist and sexist Scott Paul Beierle), I would like to take this opportunity to [1] denounce violence committed against women irrespective of their racial backgrounds, their sexual orientations, their national origins, their religious affiliations and/or their disability status; [2] denounce discrimination on the basis of gender that is committed against women; [3] denounce the way news outlets such as the Hill and CNN opted to define and shape what the “assigned gender role” of women should be in the 21st century.

As a representative of the media and a member of the general public, I (personally) really don’t know when it became the “assigned gender role” of women [1] not to try to do well in formal academic settings; [2] not to try to do their best to (i) graduate from high-school, (ii) attend a U.S college/university, (iii) graduate from the U.S college/university they are attending, (iv) bridge the income inequality gap between men and women; [3] to prevent shootings such as the one that took place on November 02nd 2018 by perhaps being more lenient towards racist and sexist Scott Paul Beierle; [4] to take responsibility for the suicide of white men; [5] to prevent the suicide of white men.

Anyways, the core issues presented in this records request are as follows. 1) Have you had conversations about the decision of Congress to pass Pub. This records request should be expedited because it puts into question the government’s integrity about the way that people are treated in the U.S.A on account of their gender, their racial backgrounds, their national origins and their disability status. My request for a fee waiver should be granted because [1] I have identified operations and activities of the federal government in concert with U.S city/county/state government as well as news media outlets such as the Hill and CNN; [2] the issues presented are meaningfully informative about government operations or activities in order to be ‘likely to contribute’ to and increase public understanding of those operations or activities. II) Request for a Fee Waiver and Expedited Processing

The requested records do/will demonstrate that [1] Women’s History Week has been commemorated in the U.S.A since March 07th 1982; [2] Women’s History Month has been commemorated in the U.S.A since March 1987; [3] the DHS (USSS) is a federal agency of the U.S government, which has in March 2022 published a report in which they have recognized that (i) the origins of the “incel” label date back to the 1990s, when a Canadian woman created an Internet peer support forum for people, who wanted a sexual relationship, but were unable to find a partner, (ii) the term “incel” is often used to describe men, who feel unable to obtain a romantic or sexual relationships with women that they believe is due to them; [4] Michael Ayele (a.k.a) W is a Black man, who has interpreted the March 2022 report published by the DHS (USSS) to mean that (i) women shouldn’t be held responsible for the November 02nd 2018 shooting carried out by racist and sexist Scott Paul Beierle, (ii) women shouldn’t be held responsible for the May 23rd 2014 mass-shooting that took place near the campus of University of California, Santa Barbara (UCSB), (iii) women shouldn’t be held responsible for the violence committed against them on account of their gender, (iv) women shouldn’t be held responsible for the suicide committed by white men; [5] the Hill is a news outlet, which has on February 22nd 2023 provided legal cover for the incel community of the U.S.A by criticizing women for (i) graduating high-school, attending a U.S college/university and graduating from that U.S college/university at a higher rate than women of previous generations, (ii) narrowing to the best of their abilities the income disparity between men and women, (iii) having higher standards and expectations when entering into a romantic relationship, (iv) not doing enough to prevent the mass-shootings that occur the U.S.A, (v) not doing enough to prevent the suicide committed by white men living in the U.S.A; [6] CNN is a news outlet, which has on (or around) February 26th 2023 praised the February 22nd 2023 article published on the Hill that has gone on to criticize women for (i) graduating high-school, attending a U.S college/university and graduating from that U.S college/university at a higher rate than women of previous generations, (ii) narrowing to the best of their abilities the income disparity between men and women, (iii) having higher standards and expectations when entering into a romantic relationship, (iv) not doing enough to prevent the mass-shootings that occur the U.S.A, (v) not doing enough to prevent the suicide committed by white men living in the U.S.A.
In my judgment, the facts presented in my request for a fee waiver and expedited processing are not the sort to bolster public confidence in the activities of the U.S government because of the way the DOJ (FBI) and the DHS (USSS) processed the Association for the Advancement of Civil Liberties (AACL) FOIA request on the subject of the November 02\textsuperscript{nd} 2018 shooting carried out by racist and sexist Scott Paul Beierle.\textsuperscript{vii} It is also my judgment that the facts presented in my request for a fee waiver and expedited processing are not going to bolster public confidence in the misogynistic and sexist propaganda that were recently broadcasted on CNN and the Hill, which formed in part the bases for my records request: I would actually strongly advise you to beware of the February 22\textsuperscript{nd} 2023 article as well as the CNN broadcast of (or around) February 26\textsuperscript{th} 2023.

As a Black man with a U.S college degree (who has previously corresponded with the DOJ and the DHS about the November 02\textsuperscript{nd} 2018 shooting carried out by racist and sexist Scott Paul Beierle), I would like to take this opportunity to [1] denounce violence committed against women irrespective of their racial backgrounds, their sexual orientations, their national origins, their religious affiliations and/or their disability status; [2] denounce discrimination on the basis of gender that is committed against women; [3] denounce the way news outlets such as the Hill and CNN opted to define and shape what the “assigned gender role” of women should be in the 21\textsuperscript{st} century.

As a representative of the media and a member of the general public, I (personally) really don’t know when it became the “assigned gender role” of women [1] not to try to do well in formal academic settings; [2] not to try to do their best to (i) graduate from high-school, (ii) attend a U.S college/university, (iii) graduate from the U.S college/university they are attending, (iv) bridge the income inequality gap between men and women; [3] to prevent shootings such as the one that took place on November 02\textsuperscript{nd} 2018 by perhaps being more lenient towards racist and sexist Scott Paul Beierle; [4] to take responsibility for the suicide of white men; [5] to prevent the suicide of white men.

Anyways, the core issues presented in this records request are as follows. 1) Have you had conversations about the decision of Congress to pass Pub. L. 97 – 28 for the purpose of requesting the President of the U.S.A to proclaim the week beginning March 07\textsuperscript{th} 1982 as “Women’s History Week?” Have you had conversations about the decision of Congress to pass Pub. L. 100 – 9 for the purpose of designating the month of March 1987 as “Women’s History Month?” Have you had conversations about the decision of Congress to pass resolutions between 1988 and 1994 for the purpose of asking and authorizing the President of the U.S.A to proclaim the month of March as “Women’s History Month?” Have you had conversations about the decision of the Joseph Biden – Kamala Harris White House Administration to proclaim the month of March 2023 as “Women’s History Month?” If yes, will you promptly disclose those records? 2) Does your local/state/federal government recognize the month of March to be “Women’s History Month?” If yes, have you had conversations about the manner in which Women’s History Month should be commemorated in your local/state/federal government? If yes, will you promptly disclose those records? 3) Have you had conversations about sexism and misogyny on the occasion of Women’s History Month? If yes, will you promptly disclose those records? 4) Have you had conversations about the “

\textit{incel community}” in the U.S.A for the
purpose of Women’s History Month? If yes, will you promptly disclose those records? 5) Have you had conversations about what the “assigned gender role” of women should be in the 21st Century? If yes, will you promptly disclose those records? 6) Is it the opinion of your local/state/federal government agency that women should be criticized for (i) graduating high-school, attending a U.S college/university and graduating from that U.S college/university at a higher rate than women of previous generations, (ii) narrowing to the best of their abilities the income disparity between men and women, (iii) having higher standards and expectations when entering into a romantic relationship, (iv) not doing enough to prevent the mass-shootings that occur in the U.S.A, (v) the suicide committed by white men living in the U.S.A? If yes, will you promptly disclose the formal/informal opinion formulated by your local/state/federal government, where you have discussed holding women accountable for (i) the suicide committed by white men living in the U.S.A, (ii) the mass-shootings perpetrated in the U.S.A by white men? If yes, will you promptly disclose those records? 7) Have you ever held conversations about arresting and prosecuting women for (i) the suicide committed by white men living in the U.S.A, (ii) the mass-shootings perpetrated in the U.S.A by white men? If yes, will you promptly disclose those records? 8) Have you had conversations about the sexist February 22nd 2023 article published on the Hill? Have you had conversations about the decision of CNN to praise the sexist February 22nd 2023 article published on the Hill? If yes, will you promptly disclose those records?

This records request should be expedited because it puts into question the government’s integrity about the way that people are treated in the U.S.A on account of their gender, their racial backgrounds, their national origins and their disability status. My request for a fee waiver should be granted because [1] I have identified operations and activities of the federal government in concert with U.S city/county/state government as well as news media outlets such as the Hill and CNN: [2] the issues presented are meaningfully informative about government operations or activities in order to be ‘likely to contribute’ to and increase public understanding of those operations or activities. Under penalty of perjury, I hereby declare all the statements I have made to be true and accurate. Be well. Take care. Keep yourselves at arms distance.

ii Women’s History Month had its origins as a national celebration in 1981 when Congress passed Pub. L. 97-28 which authorized and requested the President to proclaim the week beginning March 7, 1982 as “Women’s History Week.” Throughout the next five years, Congress continued to pass joint resolutions designating a week in March as “Women’s History Week.” In 1987 after being petitioned by the National Women’s History Project, Congress passed Pub. L. 100-9 which designated the month of March 1987 as “Women’s History Month.” Between 1988 and 1994, Congress passed additional resolutions requesting and authorizing the President to proclaim March of each year as Women’s History Month. Since 1995, presidents have issued a series of annual proclamations designating the month of March as “Women’s History Month.” These proclamations celebrate the contributions women have made to the United States and recognize the specific achievements women have made over the course of American history in a variety of fields. Women’s History Month.: https://womenshistorymonth.gov/about/

During Women’s History Month, we celebrate the countless women who have fought tirelessly and courageously for equality, justice, and opportunity in our Nation. We also reaffirm our commitment to advancing rights and opportunities for women and girls in the United States and around the world. We are mindful that we are building on the legacy of both recognized trailblazers and unsung heroines who have guided the course of American history and continue to shape its future.

The full participation of women is a foundational tenet of democracy. Women — often women of color — have been on the frontlines, fighting for and securing equal rights and opportunity throughout our country’s history as abolitionists, civil rights leaders, suffragists, and labor activists. Women continue to lead as advocates for reproductive rights, champions of racial justice, and LGBTQI+ equality. Throughout history, these women have opened the doors of opportunity for subsequent generations of dreamers and doers. As community leaders, educators, doctors, scientists, child care providers, and more, women power our economy and
lead our Nation. As first responders and service members, they stand watch over our lives and liberties. As innovators, entrepreneurs, and essential workers in every industry, they represent the very best of America.

But despite significant progress, women and girls continue to face systemic barriers to full and equal participation in our economy and society. Last year, the Supreme Court overturned Roe v. Wade, stripping away a constitutional right from the American people and the ability of millions of women to make decisions about their own bodies, putting their health and lives at risk. Disparities persist in economic security, health care, and caregiving responsibilities, especially for women and girls of color. Those who perform critical work, including those who care for our children and our families, are too often overlooked, underpaid, and undervalued.

Ours is the only Nation in the world established upon a profound but simple idea — that all people are created equal. My Administration is committed to upholding that idea and to making its promise real for every American. That is why I created the Gender Policy Council to advance gender equity and equality across the Federal Government. (...) This month, as we continue our work to advance gender equity and equality, let us celebrate the contributions of women throughout our history and honor the stories that have too often gone untold. Let us recognize that fundamental freedoms are interconnected: when opportunities for women are withheld, we all suffer; and when women’s lives are improved, we all gain. Let us strive to create a Nation where every woman and girl knows that her possibilities know no bounds in America. NOW, THEREFORE, I, JOSEPH R. BIDEN JR., President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim March 2023 as Women’s History Month. I call upon all Americans to observe this month and to celebrate International Women’s Day on March 8, 2023, with appropriate programs, ceremonies, and activities. I also invite all Americans to visit WomensHistoryMonth.gov to learn more about the vital contribution of women to our Nation’s history. IN WITNESS WHEREOF, I have hereunto set my hand this twenty-eighth day of February, in the year of our Lord two thousand twenty-three, and of the Independence of the United States of America the two hundred and forty-seventh. In the late 1990s, a Canadian woman created an Internet peer support forum for people who wanted a sexual relationship but were unable to find a partner. It was intended to be a safe place to seek support for those who felt sexually deprived due to social awkwardness, marginalization, or mental illness. She popularized the term “involuntary celibacy” as a nonjudgmental way for lonely people to identify as a group. Over time, the term would be shortened to “incel.” This forum, along with similar communities, was intended to be positive and focused on providing support for overcoming one’s “incel” status.

As the community grew, the ideas expressed in the forums changed and by the early 2000s, some of the more dominant voices were young heterosexual men with vindictive and aggressive views.
toward women. Though the original developer took down her website, the community continued to spread across other forums.

Today, the term “incel” is often used to describe men who feel unable to obtain romantic or sexual relationships with women, to which they feel entitled. The term is used to describe one online subculture that exists within the “manosphere” – a network of blogs and forums frequented by groups including incels, men’s rights activists (MRSa), Men Going Their Own Way (MGTOW), and pickup artists (PUAs). Although these groups are known to promote male-dominant views, some members express extreme ideologies involving anti-woman hate, sexual objectification of women, and calls for violence targeting women. iv As a matter of principle, the Association for the Advancement of Civil Liberties (AACl) unequivocally condemns violence committed against women irrespective of their racial backgrounds, their sexual orientations, their national origins, their religious affiliations and/or their disability status. The AACl also condemns discrimination on the basis of gender. It is the judgment of the AACl that the February 22nd 2023 article published on the Hill about the reasons why “most young men are single” is sexist and misogynistic because of its tone-deaf nature and its intention to assign women a gender role because they are women. The AACl strongly advises caution and recommends for people to think about their own biases on the subject of what “women’s assigned gender role” is before reading the February 22nd 2023 article published on the Hill, which you can access here.: [https://www.yahoo.com/lifestyle/most-young-men-single-most-110000268.html](https://www.yahoo.com/lifestyle/most-young-men-single-most-110000268.html)

v As you are likely aware, it’s not the first time that CNN has had conversations about the pervasive culture of systemic sexism and misogyny (in the U.S.A) by questioning why women are attending colleges/universities at a higher rate than the generation of women before them. In other words, it’s not the first time that CNN have legitimized as something “good” the culture of systemic sexism and misogyny in the U.S.A. About a year ago, a New York University (NYU) professor was brought on to CNN to encourage women to lower their standards and their expectations on what to expect from their romantic relationships after graduating high school, attending a U.S college/university and graduating from that U.S college/university. A year after that incident, which I have previously denounced, the same CNN journalist (who has held that conversation with that NYU professor) has gone on to praise the February 22nd 2023 article published on the Hill, which normalized sexism in the U.S.A by providing legal cover to the “involuntary celibate community” of the U.S.A. For the reasons mentioned above, the AACl strongly advises caution and recommends for people to think about their own biases on the subject of what “women’s assigned gender role” is before having unleashed upon them the sexism and misogyny that is being promoted by CNN, which you can access here.: [https://www.youtube.com/watch?v=vK4y6C1Uuhw](https://www.youtube.com/watch?v=vK4y6C1Uuhw)
The Department of Justice (DOJ) Federal Bureau of Investigation (FBI) have disclosed limited records of Westminster College (Fulton, Missouri) August 29th 1986 invitation to then-Director William Webster. These records were disclosed by the FBI following a Freedom of Information Act (FOIA) request submitted by the Association for the Advancement of Civil Liberties (AACL) on or around October 12th 2021. It’s the 2nd (second) time the Department of Justice (DOJ) have referred the AACL to the National Archives Records Administration (NARA) on issues not unrelated to the rape and murder of Jeanne Ann Clery.

The recent FBI disclosure show that Westminster College had extended an invitation to William Webster to “deliver the 1987 Commencement Address on Sunday, May 17, 1987 at 2:30 P.M.” The August 29th 1986 letter was signed by Westminster College former President J. Harvey Saunders. On October 31st 1986, William Webster accepted the invitation of Westminster College, acknowledging his formal and informal ties to Westminster College as well as Callaway County.

The rape and murder of Jeanne Ann Clery continues to leave several key questions about Title IX of the Education Amendments Act of 1972 unaddressed. These questions include but are not limited to the following. 1) What are/were colleges/universities in the U.S.A obligations pursuant to Title IX of the Education Amendments Act of 1972? Were colleges/universities throughout the U.S.A required by law to denounce violence committed against women irrespective of their racial backgrounds, their sexual orientations, their religious affiliations and their national origins following the enactment of Title IX of the Education Amendments Act of 1972? If yes, were colleges/universities required to inform their students what constitute appropriate sexual boundaries pursuant to Title IX of the Education Amendments Act of 1972? 2) Did colleges/universities throughout the U.S.A begin informing their students what constitute “affirmative and effective consent” following the enactment of Title IX of the Education Amendments Act of 1972? If not, when did colleges/universities begin to inform their incoming freshmen/transfer students about the concepts of “affirmative and effective consent”? Did colleges/universities throughout the U.S.A begin teaching the concepts of “affirmative and effective consent” to their incoming freshmen/transfer students following the rape and murder of Jeanne Ann Clery (dated April 05th 1986)? If yes, why have colleges/universities throughout the U.S.A fixated on the rape and murder of this Caucasian woman by a Black/African American man to inform their incoming freshmen/transfer students about what constitutes “affirmative and effective consent”? 3) Are colleges/universities discussions pertaining to what constitutes “affirmative and effective consent” consistent with Title IX of the Education Amendments Act of 1972 if they are first informing their incoming/freshmen students about the rape and murder of Jeanne Ann Clery? Are colleges/universities discussions pertaining to what constitutes “affirmative and effective consent” consistent with their academic integrity policy if they are first informing their incoming freshmen/transfer students about the rape and murder of Jeanne Ann Clery? 4) Were there forces out there in the 1970s and the 1980s looking for a case where a Black man rapes and murders a Caucasian woman for the purpose of enacting a law similar to the Jeanne Clery Act? Was the enactment of the Jeanne Clery Act the result of racist and sexist individuals coming together for the purpose of [a] preventing racial minorities from climbing the social ladder through academic education; [b] cracking down on interracial relationships particularly between a Caucasian woman and a Black/African American man; [c] not applying the same standards in circumstances where a Caucasian man sexually assaults a woman from a...
Racial minority (as in the case of Brock Turner and Chanel Miller following her rape on January 18th, 2015 at the campus of Stanford University)? Approximately 5 (five) Months After the April 05th 1986 Rape and Murder of Jeanne Ann Clery. Michael A. Ayele (a.k.a) W Official Website.:

As part of promotion for a totally under-the-radar film called Don't Worry Darling, Olivia Wilde explains to fellow director and interviewer Maggie Gyllenhaal who Jordan Peterson and the incel community are. Specifically that Chris Pine's character is based off the former:

**WILDE:** Terrifying. We based that character on this insane man, Jordan Peterson, who is this pseudo-intellectual hero to the incel community. You know the incels?

**GYLENHAAL:** No.

**WILDE:** They’re basically disenfranchised, mostly white men, who believe they are entitled to sex from women.

**GYLENHAAL:** Oh, right.

**WILDE:** And they believe that society has now robbed them—that the idea of feminism is working against nature, and that we must be put back into the correct place.

Read more

**GYLENHAAL:** Well, they must be psyched. Things are going really well for them.

**WILDE:** Yeah, they’re actually succeeding in many different ways. But this guy Jordan Peterson is someone that legitimizes certain aspects of their movement because he’s a former professor, he’s an author, he wears a suit, so they feel like this is a real philosophy that should be taken seriously.

**GYLENHAAL:** Wow.

On (or around) March 15th, 2022, the Department of Homeland Security (DHS) United States Secret Service (USSS) had published a report about the November 02nd, 2018 shooting in Tallahassee, Florida. On (or around) March 16th, 2022, agency officials representing the DOJ confirmed that they had settled a lawsuit filed against them for the February 14th, 2018 mass-shooting in Parkland, Florida.
For very obvious reasons, the Association for the Advancement of Civil Liberties (AACL) is deeply concerned about the decision of the FBI to take some responsibility for February 14th 2018 mass-shooting in Parkland, Florida but not for the November 02nd 2018 shooting in Tallahassee, Florida. The AACL unequivocally denounces gun related violence committed in the U.S.A and/or elsewhere in the world. The AACL acknowledges that systemic chauvinism, discrimination, misogyny, racism and sexism is very much fueling the U.S.A gun violence public health epidemic. The AACL unequivocally denounces the systemic chauvinism, discrimination, misogyny, racism and sexism that is plaguing U.S society.
